

ANEXO A - DESCRIPCIÓN DE LAS INSTALACIONES PRINCIPALES.

Solarpack Company Profile

February 2018

Strictly Confidential

25
2018

Introduction to Solarpack – General overview

2005 – 2017 Short history – Long track record

Full Value Chain

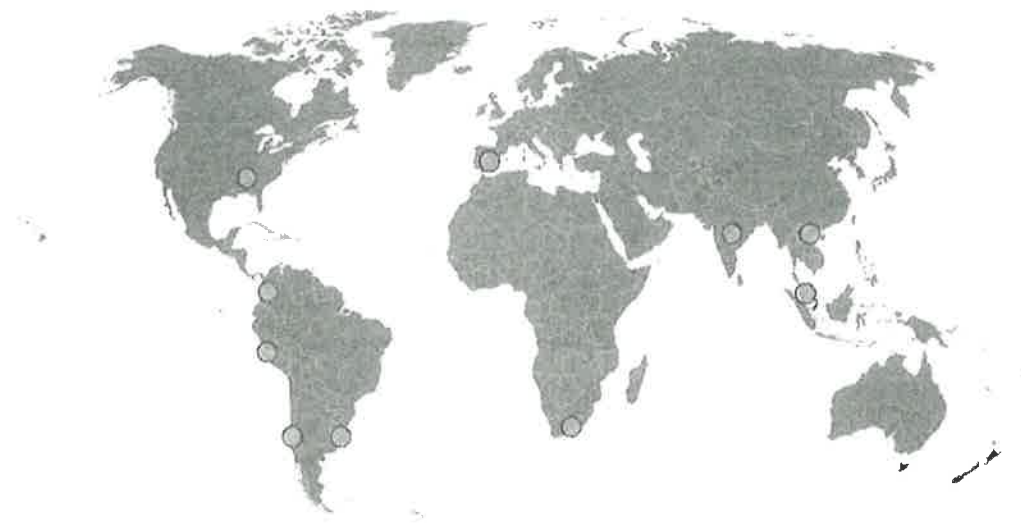

Development – Project Financing – EPC – O&M – AMS – Ownership – Divestment

Spain, France, US, Chile, Peru, Uruguay, Ecuador, South Africa, India, Asia, Colombia

Fully experienced management team, supported by +100 professionals

Challenging but reachable future prospects and potential

Solarpack's International Footprint – Est. dates

- 2005: Spain
- 2008: Chile
- 2008: France
- 2009: USA
- 2009: Peru
- 2011: SAR
- 2014: Ecuador
- 2014: Uruguay
- 2015: India
- 2016: Asia
- 2017: Colombia

Solar PV Utility-Scale

371 MWp completed developments

- Spain: 33.5 MWp
- Peru : 106 MWp
- Chile: 58.1 MWp
- USA: 43.8 MWp
- Uruguay: 26.3 MWp
- India: 104 MWp

251 MWp project financed

179 MW Built, Operated and Maintained

104 MWp under construction

279 MW Managed

10 countries

7 projects sold

1.909 MW project pipeline

17/03

Track Record– O&M Activity

- Philosophy: Maximize production and uptime & Improve plant siting, construction and design practices through continuous internal feedback
- Monitoring and coordination centralized in Spain. Specialist coordinating security and monitoring measures resulting in low incidence of thefts On-site operation, in 3 countries, resulting in quick response time
- Plant availability (attributable to the operator) above 99% for periods above 12 months
- Certified by several inverter manufacturers to carry out on-site repair works

O&M Track Record – Plant availability

	2008	2009	2010	2011	2012	2013	2014	2015	2016
Isla Mayor	99,4%	99,7%	99,4%	99,6%	99,9%	99,8%	99,9%	99,7%	99,7%
Lebrija	95,8%	99,6%	99,8%	99,4%	99,3%	99,8%	99,9%	99,8%	99,6%
